## Meet Daniel and his grandmother Dana

CARUSO FAMILY  
Charities

Daniel was born with Fetal Alcohol Syndrome and a physically abusive mother. Daniel's single grandmother Dana felt immense love for him and knew the only way he would have a chance in life was to get Daniel out of the abusive, toxic situation he was in.

Dana took on the responsibility of being his guardian and raising Daniel. Together they would start a new life in Colorado. The first two years of caring for Daniel were even more challenging than imagined. Daniel wasn't hitting any of his major milestones, was always sick, and was having a hard time doing everyday tasks that even a child with Fetal Alcohol Syndrome should be able to do.

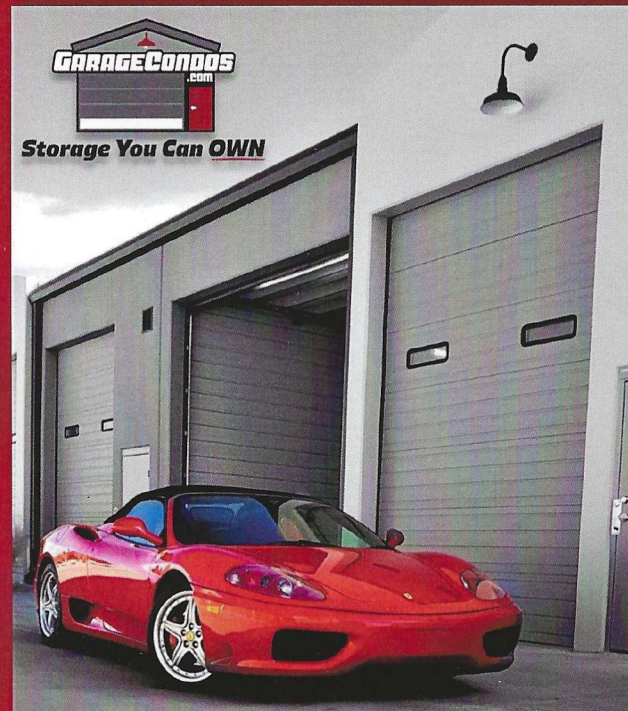

The unthinkable happened on July 7, 2021 when Daniel was diagnosed with brain cancer and had to have a tumor removed from his brain and his spinal cord. Dana took a leave of absence from work to care for Daniel and quickly fell behind on bills and rent. Thanks to Caruso Family Charities, Daniel's grandmother received over \$10,000 to cover bills, rent and avoid homelessness, which would have been pure devastation for this family.

Through events like the Automezzi, Caruso Family Charities is able to make an impact in the lives of those going through the unimaginable. We are beyond grateful for all the support we receive from the Automezzi community for CFC families in need.
