We're thankful for all the love and support of our family and friends. We're especially thankful for Jesus who came to save us and give us peace during this difficult year. With Jesus, we can make it through this together!

## Some COVID Experiences:

- Watched Andrew (nephew) & Darrah's wedding streamlined in the comforts of our home in our pajamas
- Watched Chris's (nephew) & Joscelyn's (his wife) online graduation from UVA Medical School
- · Attended a Drive-in Summer Concert
- · Watching church online
- Working remotely from home, Zoom meetings and upgrading our internet bandwidth
- Participated in a Drive-in Dinner and Murder Mystery Show. We correctly guessed who did it, the motive and method by texting in our answer. The Tesla in front of us won the \$200 gift card
- · Air travel is a new experience, Leyla flew to Phoenix, AZ and Richmond, VA and Blake to Iowa
- Attended a friend's quaint outdoor wedding in the Colorado Springs mountains
- · Going on lots of walks, bike rides and playing Frisbee golf
- · Ski season restrictions
- Can't forget the shortage of toilet paper. Who would've guessed!?
- Last, but not least, we all tested COVID positive, thankfully mild cases. I write this as we're quarantined together

A year like no other. A year in the history books. A year we'll never forget. A year where we need Hope and Peace.

May the God of hope fill you with all joy and peace in believing so that by the power of the Holy Spirit you may abound in hope. Romans 15:13

Jesus is still the Hope of Christmas. May He be the Hope of your Heart.

Wishing you all a HEALTHY 2021!!

Love, Leyla, Cal and Blake
