Merry Christmas 2025

From the Wieders

I was thinking about our Christmas letter in the middle of the night! Twenty twenty-five is quickly coming to an end. It seems like just yesterday I was working in the Technology Department in Academy School District Twenty. We were running around the district making sure all of the computers were up to date and we would survive Y2K!!! We, and the whole world, did! Then I thought about how quickly 25 years have passed and how blessed we have been. We both retired, have welcomed 5 grandsons into the world, moved 2 times and traveled quite a bit and are enjoying life!

Wieders: Doug continues to travel to California every other week or so and Kristen continues her commercial property management position. Sam turned 21 in October and is a Junior at CU. Jonny (17) is a senior and looking at colleges. Nick just turned 15, (just got his Driver's Permit) and is a Freshman in High School. We enjoyed watching Nick's baseball team win a few championships. This is how busy their lives have been this year: College visits and baseball tournaments- Oregon, KC, Tennessee, San Diego, Arizona, Alabama, Georgia, Chicago and Wisconsin. Nick also went to Washington DC and Sam did another California trip. Sam climbed some 14ers, one with Doug!

Andersons: Mark and Stacy are doing well. Max (19) is in his first year of College at Michigan State (his Dad's alma mater). Myles (16) is a Junior in high school. Both boys played Lacrosse much of the school year and both were life guards this summer. They had a grand adventure this summer flying to Iceland and then hiking around Mont Blanc. They wandered through France, Italy, and Switzerland! Have to admit I was very jealous! Max also made it to the top of some 14ers!

George and Kay: The best news is that George is doing well on the medication they have given him for Prostate Cancer, praise God! He fell while we were walking Willie in February and severely pulled both hamstrings! Took a while to get over that! In September, along with George's sister, Peg, and her friend, Flo, we took a fabulous trip with Overseas Adventure Travel, "Italy's Western Coast & Islands: Rome and Valletta". Our trip began in Lake Orta, Italy. Our hotel was right on the lake! Each day we ventured out. One day we went to a small town that had a Chimney Sweep Museum and got to see a Chimney Sweep Parade nearby. Enjoyed time at Lake Maggiore and drove toward the Swiss Alps to a village at the foot of Monte Rosa, the second largest mountain in Europe! We then flew to Malta and got on a 50 person boat for 10 days. Some highlights were, climbing part of Mount Etna, cruising through the Strait of Messina and seeing the volcano, Stromboli, on fire, walking the streets of Salerno and Sorrento, visiting the Sicily-Rome American Cemetery, revisiting Pompeii and seeing all of the sights and sounds of Rome! While Peg and Flo were touring the Vatican, the Sistine Chapel and St. Peter's Basilica, George and I climbed the stairs to the top of the St. Peter's Dome!!! What an adventure!!!

Chimney Sweeps with
our leader, Giulia

Monte Rosa

Kay, Flo, Peg & George
4 ancient people in
Ancient Pompeii

There they are again in
Ancient Rome!

Our very fun group to travel with. Sal,
kneeling, was our very fun leader!

*Wishing you all the happiness
that this season can bring,
And a year ahead that's filled with love,
laughter, and everything!*

PS - About the photos on the card. Photos of us and Pegg and Flo on our trip. The photo of the Andersons is in Zermatt with the Matterhorn in the background before they started their hike. The Wieder photo was taken at Nick's 8th grade Continuation.
